Learn about the [Danaher Business System](#) which makes everything possible.

The Sr. Scientist, Scientific Affairs is responsible for activities pertaining to our participation in proficiency testing surveys and complaint investigations with the purpose to support internal and external customers as well as internal surveillance processes for current and future products. Approximately 10-20% of time will be spent in the laboratory.

This position reports to the Vice President of Scientific Affairs and is part of the Scientific Affairs team located in Solna, Sweden and will be an on-site role.

In this role, you will have the opportunity to:

- Investigate escalated complaints with regards to discrepant results and other performance issues with patient samples, proficiency samples and control materials and communicate the results to internal and external customers. This may involve using microbiological techniques.
- Maintain and develop the DW lab investigation process in Solna.
- Plan and develop the annual PT/EQA participation to enable our support of Post Market Surveillance and customers for our current and future products.
- Perform Post Market Surveillance activities pertaining to PT/EQA.
- Perform laboratory testing and result analysis for purpose of compatibility testing of Cepheid current and future products.
- Sustain and develop relationships with PT/EQA vendors.
- Draft and update customer facing documents related to Scientific Affairs activities.
- Support laboratory maintenance, inventory and routines as needed.
- Collaborate with cross-functional teams such as Medical Affairs, Technical Support, Global Product Support, Failure Investigation, Post-Market Quality etc. as needed for troubleshooting or investigating cases regarding specimens and clinical results.

The essential requirements of the job include:

- Bachelor's degree in Life Science or Clinical/Medical Laboratory Science with 5+ years of

related work experience OR Master's degree in Life Science or Clinical/Medical Laboratory Science with 3+ years of related work experience.

- 3+ years of experience in position doing work task of scientific laboratory or investigatory tasks
- Fluent written and spoken english

Travel Requirements:

- Ability to travel – <10% , overnight, global

It would be a plus if you also possess previous experience in:

- Performing microbiological tests
- Working in a biosafety level 3 laboratory

Cepheid, a Danaher operating company, offers a broad array of comprehensive, competitive benefit programs that add value to our lives. Whether it's a health care program or paid time off, our programs contribute to life beyond the job. Check out our benefits at [Danaher Benefits Info](#).

Join our winning team today. Together, we'll accelerate the real-life impact of tomorrow's science and technology. We partner with customers across the globe to help them solve their most complex challenges, architecting solutions that bring the power of science to life.
